Great sub
Great super

Oak casework and stool

B.O.B. blower

Organ in good playing order, maintained by Brian Brighton, ex-apprentice of J.H. Nelson.

Some alterations by H.E.Prested probably to pneumatic tubing.

The sound is particularly rich with diapason chorus, giving a good lead for 200 congregation.

The sub and super couplers give added strength and variation to sounds produced.

- Notes John Hart

The church is to close in the next few weeks when the organ will be available.

Enquiries to the church contact, please.

Buyer makes removal arrangements.

Seller is not responsible for errors.
