Switches on the key slips provide –

Great to Pedal OFF/ON

Swell Reeds to Choir OFF/ON

This substantial organ was built by Albert Keates of Sheffield and was overhauled by J E Shippen of Leeds in 1988.

It has been regularly tuned and maintained and appears to be in fairly good condition. There is virtually no running on any of the manuals.

The church has closed and the building will shortly be sold.

Please make you interest know to the church contact.

The building is listed and the implications of removing the organ have not yet been resolved.

Care is taken to provide accurate information but the seller is not responsible for errors.

Buyer makes all arrangements for removal from the building.
